FORWARD-LOOKING AND CAUTIONARY STATEMENT

Certain statements contained in this presentation, other than the statements of historical fact, contain forward-looking statements regarding Implats' operations, economic performance or financial condition, including, without limitation, those concerning the economic outlook for the platinum industry, expectations regarding metal prices, production, cash costs and other operating results, growth prospects and the outlook of Implats' operations, including the completion and commencement of commercial operations of certain of Implats' exploration and production projects, its liquidity and capital resources and expenditure and the outcome and consequences of any pending litigation, regulatory approvals and/or legislative frameworks currently in the process of amendment, or any enforcement proceedings. Although Implats believes that the expectations reflected in such forward-looking statements are reasonable, no assurance can be given that such expectations will prove to be correct. Accordingly, results may differ materially from those set out in the forward-looking statements as a result of, among other factors, changes in economic and market conditions, success of business and operating initiatives, changes in the regulatory environment and other government actions, fluctuations in metal prices, levels of global demand and exchange rates and business and operational risk management. For a discussion on such factors, refer to the risk management section of the company's Integrated Annual Report. Implats is not obliged to update publicly or release any revisions to these forward-looking statements to reflect events or circumstances after the dates of the Annual Report or to reflect the occurrence of unanticipated events.

Disclaimer: This entire presentation and all subsequent written or oral forward-looking statements attributable to Implats or any person acting on its behalf are qualified by caution. Recipients hereof are advised the presentation is prepared for general information purposes and not intended to constitute a recommendation to buy- or offer to sell shares or securities in Implats or any other entity. Sections of this presentation are not defined and assured under IFRS accounting standards, but included to assist in demonstrating Implats' underlying financial performance. Implats recommend you address any doubts in this regard with an authorised independent financial advisor, stockbroker, tax advisor, accountant or suitably qualified professional.

SUPPLY AND DEMAND BALANCES

2024 PLATINUM MARKET to remain in deficit

- **Demand** expected to **increase by 5%**
  - Automotive to ease as LV production growth is skewed to BEVs
  - Jewellery demand stabilising – underpinned by India and the West
  - Industrial supported by chemical and glass
  - Positive YtD ETF inflows offset weaker Japanese bar and coin demand
- **Supply** to **increase by 1%**
  - Modest recycling growth to offset weaker Russian supply

2024 PALLADIUM MARKET to remain in deficit

- **Demand** estimated to **decrease by 3%**
  - Automotive impacted by BEV growth, switching and Chinese thrifting
  - Industrial offtake reflects ongoing price elasticity of demand
  - Positive YtD ETF inflows
- **Supply** to **remain flat**
  - Russian processing maintenance and reduced North American production

2024 RHODIUM MARKET to remain in deficit

- **Demand** to **decrease by 1%**
  - Weaker automotive demand, with recovery in industrial offtake
- **Supply** to **increase by 5%**
  - Increased South African and secondary supply

OPERATING CONTEXT

GLOBAL ECONOMY AND PGM MARKETS

- Delayed interest rate moderation
- Impacting global growth and investment sentiment
- Downward pressure on commodity prices
- PGM pricing informed by global economy sentiment
- Improving market fundamentals
- Cautious on near-term price recovery
- Longer-term electrification risks remain

KEY ACTIONS TAKEN

- Impala Canada restructured and repositioned
- Two Rivers Merensky growth project on care and maintenance
- Mimosa North Hill LoM extension not approved
- Marula Phase 2 LoM extension
- Slower ramp-up and labour alignment at Impala Bafokeng's Styldrift Mine

OUTCOMES

- Key priority that all operations are resilient and contribute sustainably and profitably through the cycle
- Labour restructuring across Group operations and corporate office concluded
- Positive FCF generation in H2 FY2024
- Well positioned to navigate a challenging environment

BUSINESS PRIORITIES

SAFETY

- Eliminate fatalities

IMPALA BAFOKENG

- Styldrift
  (operational maturity and performance)
- IBR/Impala (integration and synergies)

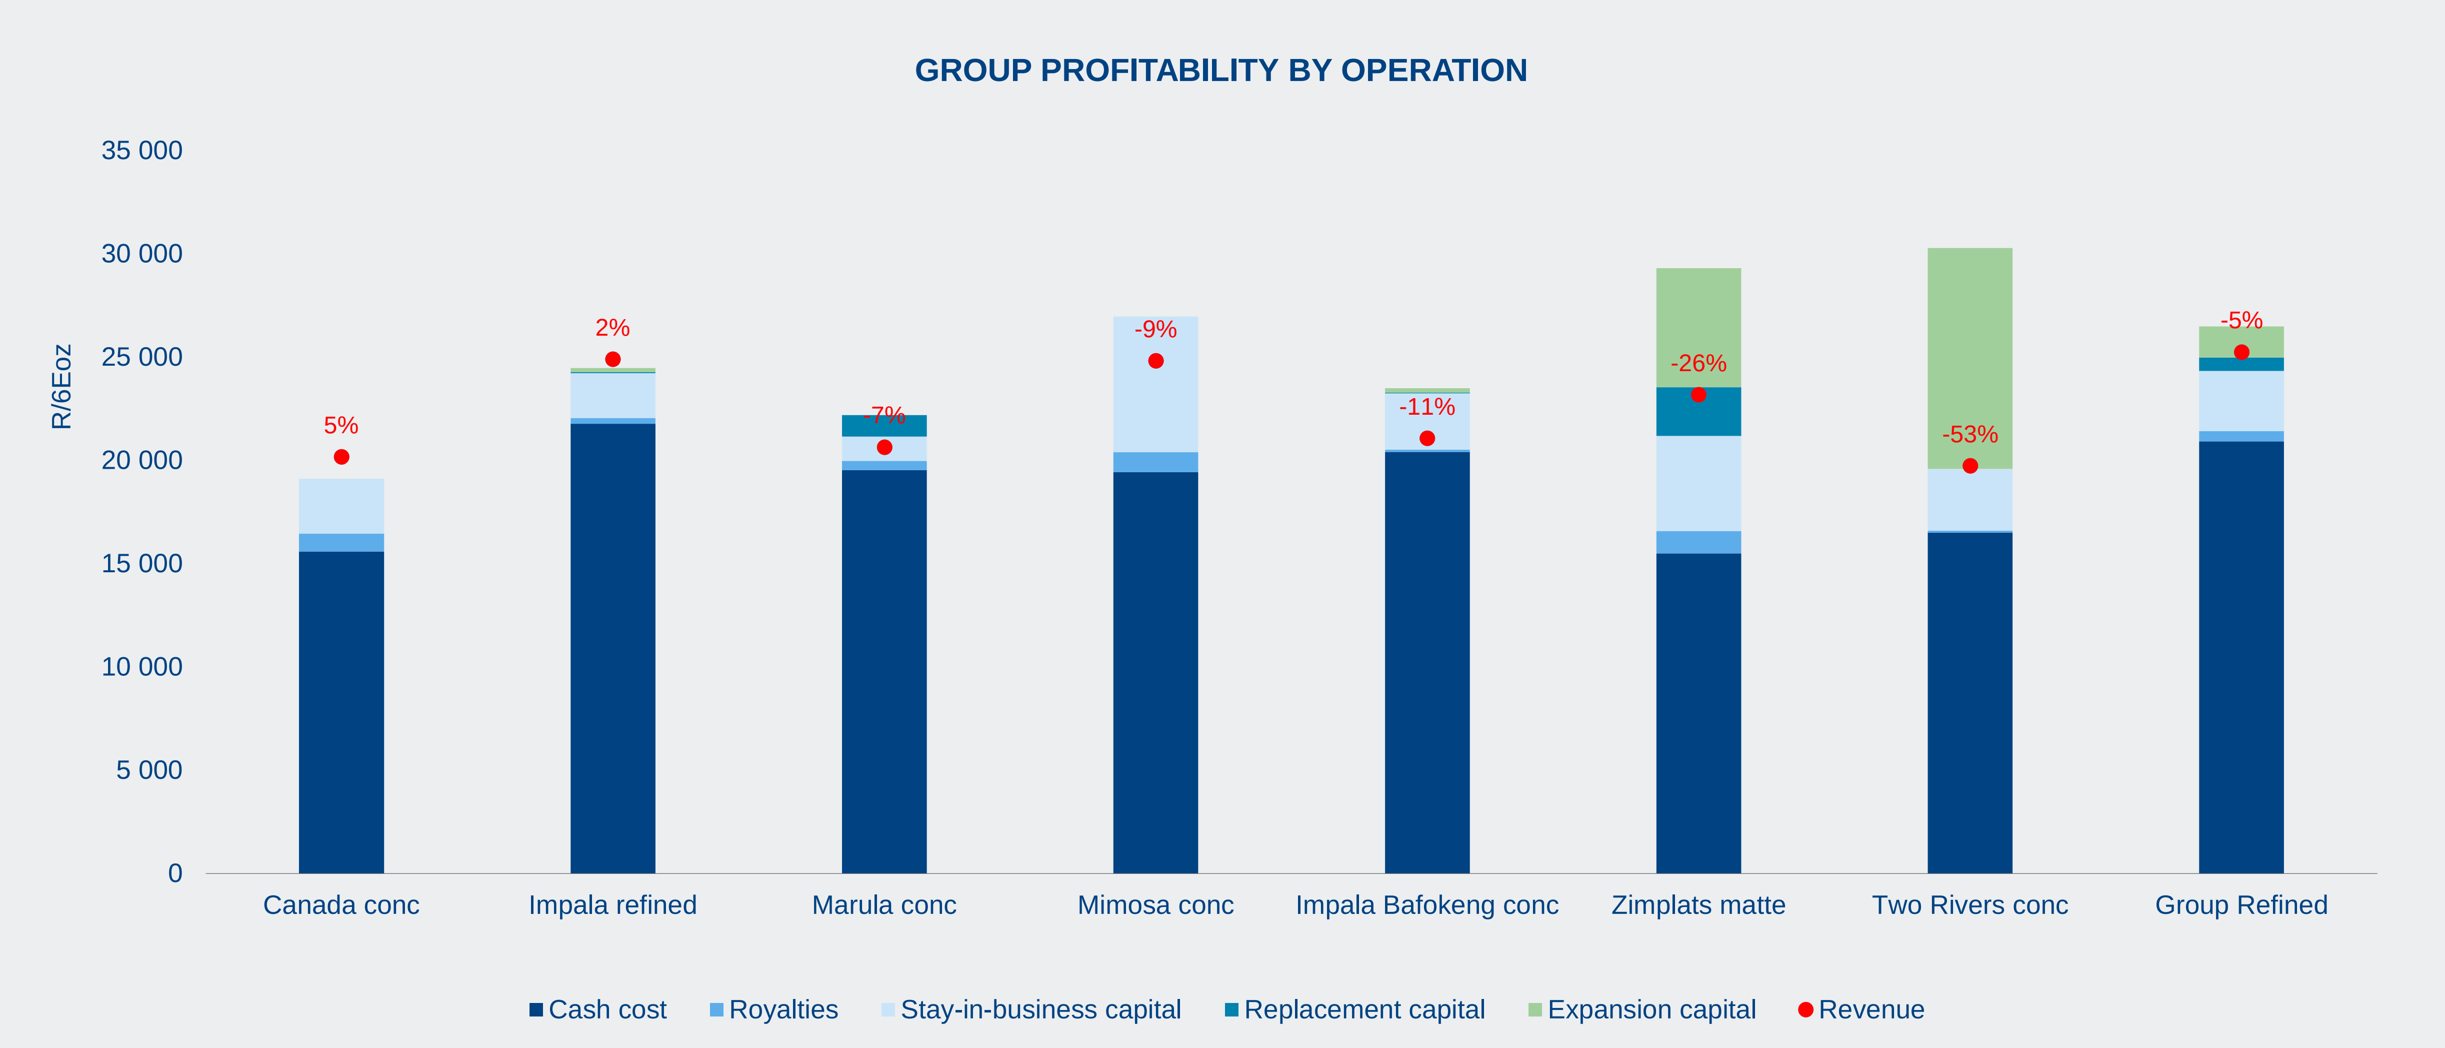
PROFITABILITY



EXCESS STOCK

Excess stock of c.390koz at the end of June 2024

- Furnace No 5 rebuild
- Higher Impala Rustenburg receipts
- Limited load curtailment (12koz)

Excess stock of 390koz released equally over the next 3 years

- Annual maintenance and refineries year-end stock take during Q1 FY2025
- Expanded Zimplats smelter to be commissioned in October 2024
- Bulk of the c. 130koz release expected in H2
